“ *Mrs. Johnnie and family,
I was truly saddened to hear of Bob's passing. Bob greatly influenced my life and was always good fun to be around. We have too many classic stories to tell here. He was an excellent geologist working the most difficult trend in South Texas, the Wilcox Lobo trend. He was a mentor for me and others who had the opportunity to work with him. He will be missed but never forgotten.*

My sympathy and prayers go with you and your family during this time.

*Sincerely,
Dave Davis*
